Description

The Square shelter is made of strong steel with several finishes available to suit your environment. The shelter has an anti-vandal clear polycarbonate UV stable roof as standard, with optional polycarbonate or steel mesh sides and back panels. The shelter comes with galvanised bike stands for up to 10 or 20 bikes for secure bike parking and to provide confidence to cyclists by allowing both the frame and wheels to be secured to the cycle stand.

Options:

This square bike shelter can be ordered in two different sizes to fit 10 or 20 bikes. It comes with several options for finish - powder-coated, hot-dipped galvanised, or both hot-dipped galvanised and powder-coated in the colour of your choice. The shelter can be manufactured with additional polycarbonate back and end panels made from either steel mesh or polycarbonate. The smoking section can have additional ashtrays and benches. The roof is made of clear anti-vandal polycarbonate as standard but can be made of corrugated steel instead. Swing or sliding gates are available, too, manufactured of polycarbonate or steel mesh. You can also opt for an extra added security feature - a coded padlock for the gates.

Specification:

- 10 Cycles parking galvanised, bike stands included
- Includes assembly bolts, expanding foundation bolts for concrete plinth and arrangement drawing for assembly
- Anti-vandal central support post
- No climb end frames with anti-vandal polycarbonate panels on roof and back (optional sides); or corrugated steel roof with mesh back and sides
- No-crawl under perimeter
- Polycarbonate roof as standard, optional back and side panels
- Hot dipped galvanised or polyester powder coated to BS EN ISO 1461:1999 standard finish
- Single units can be placed alongside or opposite each other to form larger cycle storage areas
- Shelter comes with adjustable overground fixing feet
- This bike shelter can help contribute towards gaining ENE8 Cycle storage credits when used in the appropriate situation under the Code for Sustainable Homes

Size:

4100mm length x 2100mm width x 2200mm height

Delivery Time:

Typically 3 to 5 weeks
